M^a Cruz Roldán
Tomás Marín
Jaime Tejeda
Marcel.La Senent

Minutes

1. Review of teacher participation in the forum.
 - Problems of entry to participation forums.
 - Most teachers say they did not received the information with passwords. We agreed to send a message to Pixel to see if indeed not been sent or if our server did not accept the address (spam).
 - To solve this problem, we are, in the meantime, those teachers who will speak at the forum, send comments to Marcela or Enric for them to enter in your name.
2. Conclusions about the first issue Identifying students at risk.
 - Read theme highlight the need much direct contact with students and their families from the beginning of the course.
 - We also see that the previous information received by Secretariat the academic data of previous years, provides an initial map of the situation in each class group.
 - Also our initial seminar of coexistence between the class set their own rules for participation and sharing, provides a new basis for participation and helps prevent some problems.
