Enrica Lazzaretto	IIS "E. Usuelli Ruzza"
Tiziana Ferlicca	IIS "E. Usuelli Ruzza"
Camilla Tamiozzo	USR Veneto

Minutes

The final workshop took place on February, 27 – 2013 at USR Veneto (Venice).

The closing face-to-face workshop took place on the same day of the fourth virtual meeting.

The workshop was intended to make a round table with teachers on WP5. The two groups of schools presented their proposals.

With regard to the educational product addressed to students, the school "De Amicis" will coordinate the work. The teachers suggested to shoot a sort of video or commercial. The group agreed on presenting a concrete proposal by the introductory workshop on Module 5 to be organised on March 2013. The leader will be supported by the teachers of the schools "C. Scarpa" and "Scotton".

The other group suggested to elaborate a brochure addressed to teachers to promote the afternoon study groups which were tested in the vocational school "L. Luzzatti" and might represent an innovative solution to prevent the early school leaving. The brochure will be the result of the cooperation between the schools "L. Luzzatti" and "E. Usuelli Ruzza".

During the closing workshop teachers agreed that the school "C. Scarpa" will support USRV in managing the discussion on the forum and coordinating the last virtual meeting on Module 5.

During the next introductory workshop procedures and methods concerning the coordination of the virtual meeting will be set up.

The virtual meeting on Module 4 was managed by the technical-vocational school "A. Scotton" and the spokesperson was Ms. Anna Campese.
