10 am Registration of participants

At 10.15 Prof.ssa Paola Fiammelli has the form 2 'Communication' and inform hes has entered notes that collect attachments (documents, templates and worksheets) for easy reading and understanding.

At 11 opens the debate on the form coordinated by prof. Bertini

The exchange of ideas and experiences rise to the following considerations:

- We recognize the importance of the theme of the second module, the communication teacher students and families relies on empathy to activate the self-esteem, the student is important to see the emotional part of the teacher, makes him feel closer to it .
- There are educational situations in which communication is possible only between teacher and student, with parents because it is impossible to never participate in school activities.
- You need to activate the spaces dedicated to interviews with families identifying precise contents of investigation and ladders shared

The debate ended at 13.
